|                     |                                                                                 |
|---------------------|---------------------------------------------------------------------------------|
| Finish              | white                                                                           |
| Material            | acrylic                                                                         |
| Shape               | half round                                                                      |
| Width [mm]          | 800                                                                             |
| Length [mm]         | 800                                                                             |
| Height [mm]         | 45                                                                              |
| arc radius [mm]     | 550                                                                             |
| Installation method | directly on the spout, on the floor level, on the construction material support |
| Drain diameter      | 90                                                                              |

### Features:

- An innovative combination of granite and steel
- Durable acrylic material that maintains its shine and color
- Only the best materials, the quality of which has been confirmed by laboratory tests
- For installation at floor level, directly on the screed or supported by construction mater
- Note! The NHC\_029C and NHC\_029D siphons are compatible with the shower tray.
- Hydrophobic Active-Cover coating that makes it easier for water to run off the glass
- Dedicated to Active Cover surfaces
- Double top rollers with ball bearings
- Bottom rollers allow for the door detachment and easier product care
- Safe and durable tempered glass
- Resistance to impacts, chemicals and stains in accordance with PN-EN 14428+A1:2008 norm, c
- The profile system makes it possible to reduce the curvature of the walls
- Covering of assembly elements
